The Napoli Film Festival Selection Committee will select up to 10 films and will inform the selected participants of their choice by no later than **APRIL 20, 2011**.

The film makers admitted to the competition must guarantee submission of a 35mm copy for the international market (non-submission will result in exclusion from the competition), in the original language with subtitles in Italian, French or English.

An **electronic copy** of the **dialogues** in Italian, French or English for dubbing/subtitling has to be submitted no later than **APRIL 27, 2011**, as well as a 30/60" **film clip** (Betacam SP or DVD disc zone 2 or universal).

The Napoli Film Festival organizers reserve the right to schedule selected films at the date, time and location of their choice.

The selected films may be subject of debate and exhibitions that will take place in the months following the Festival. As such, the Management will make agreements with the entitled parties.

ARTICLE 5 JURY

The Napoli Film Festival Committee will appoint a jury composed of Italian buyers and personalities from the cinema and cultural world, with the exclusion of those parties that have collaborated in the creation of the films in competition or who have an interest in the use of such films.

The jury, during their first meeting, will elect the President from among its members. The President's vote, in the following ballots, will count double in case of parity.

The Napoli Film Festival Management will support the Jury with the exclusive function of assistance in the matters of Regulations and praxis. The Jury's decisions are final and indisputable.

ARTICLE 6 PRIZES

The selected films will run for

- The Vesuvio Award (bronze statuette).
- Augustus Color Award: Consisting of 5 positive colour prints to be used for the Italian distribution of the winning feature film.
- Asit News Award: A year of Italian press review coverage for the winning film

ARTICLE 7 SHIPPING COSTS

The participants will pay for shipping costs for the selection material; the participants will also pay for the publicity, informative and photographic costs of the films.

The Napoli Film Festival will pay for the shipping costs of the 35mm copies selected, with a courier selected by the Management. A specific code number will be given to the participants. It is essential that a correct and complete return address for the copy is specified at the time of submission.

International shipping packages must include the following customs statement on the outer surface of the package: "**CULTURAL MATERIAL OF NO COMMERCIAL VALUE – EXCLUSIVELY FOR CULTURAL USE**". Packages sent by postal service or express courier, from countries residing outside the European Community, must be accompanied by a pro-forma invoice for a value no greater than 10US\$.

ARTICLE 8 INSURANCE

The Festival's Management guarantees insurance coverage "against all risks" for the films' layover period at the screening premises. However, the insurance value of the films can not be greater than the laboratory cost of a standard copy. Beyond this, every possible measure will be taken to protect the copyright of the films entrusted to the Festival.

ARTICLE 9 GENERAL RULES

The Rules and Regulations are written in Italian and English. Any disputes over the interpretation of the individual articles of the Regulations will be based on the original Italian version.

The request to participate in the Festival implies the unconditional acceptance of and compliance with the Rules and Regulations. It is the responsibility of the directors, distributors or other parties who present feature films to guarantee that they are legitimately authorized to submit the films to the Festival. The directors, distributors or other parties who present a feature film jointly with the authors must release a written statement duly signed, in appendix to the submission form, in which they clarify, under their own responsibility, the registration of the copyright utilization of the film and for the payment of the prizes.

The director of every film invited to the official selection will be offered hospitality for a period of up to 4 days. Any matters not contemplated in the Rules and Regulations are the competence of the organizing association's Board of Directors, which has the power to make exceptions to the Rules and Regulations in particular and justifiable cases.

ARTICLE 10 ARBITRATION CLAUSE

Any controversy that should arise between the participants and the Napolifilmfestival Napoli Film Festival must be transferred to the indisputable decision of a board of arbitration, formed by three amicable composer arbitrators, who will judge "*ex bono et æquo*", without formality of procedure (excepting contradictory cases between parties) within 60 days of their appointment. Their resolution will be adopted as the agreement reached by the parties. Each party will nominate one arbitrator and the third will be nominated by the first two or if agreement is not reached, by the President of the Court of Naples (Tribunale di Napoli) who will also nominate the arbitrator for the party that has not done so.
